

Healthy Home

Miele's innovative features provide peace of mind within the kitchen space.

Ovens

- **PerfectClean** – Avoid using harsh chemicals thanks to our patented enamelled surface coating
- **Pyrolytic Cleaning & PyroFit Accessories** – The oven cavity and the chromed accessories are thoroughly cleaned, as the oven heats up to 440 °C during the pyrolytic programme
- **MoisturePlus** – Fresh water is always guaranteed as the user will be prompted to evaporate any residual moisture from the previous programme
- **Food Probe** – Precisely control the core temperature of your meat to ensure it is never undercooked

Coffee Machines

- **AromaticSystemFresh** – Enjoy fresh coffee with each cup, as the machine doesn't utilise previously ground beans
- **AutoClean & AutoDescale** – A clean and healthy machine without the labour intensive cleaning cycles, utilising a mild solution
- **Automatic Rinses** – Milk pipework rinsed automatically after milk-based drinks to prevent any residue or bacteria
- **EasyClick Milk System** – After beverage preparation the milk flask is easily removed to be stored in the fridge to prevent spoilage

Rangehoods

- **Fan Run On** – Vapours are properly extracted and not deposited back into the kitchen environment
- **10 Ply Stainless Steel Grease Filter** – Effective grease filtration and easy cleaning in a dishwasher
- **CleanCover** – The user is not exposed to any electrical components, making cleaning the inside of the rangehood safe and hygienic

Steam Appliances

- **Stainless Steel Oven Compartment** – Durable and hygienic throughout the entire product lifecycle
- **Sterilising** – Jars, baby bottles and other containers can easily be sterilised at 100°C for 15 mins
- **Healthy Cooking** – Important vitamins and nutrients are retained through steam cooking, up to 50% more than with boiling water!
- **Cleaning Programmes** – Effortless cleaning after use with automatic rinse, soak, and drying options

Induction Cooktops

- **KeepingWarm** – Keep soups and casseroles at perfect serving temperature for up to 2 hours within the safe handling zone of 75°C
- **Glass Scraper** – Dried on food residue is easily removed whilst protecting your glass surface

Dishwashers

- **Stainless Steel Interior** – Prevent odours and staining thanks to the non-porous, stainless steel interior
- **3D+ Cutlery Tray** – Cutlery items are separated for a thorough clean and can be conveniently loaded and unloaded by their handles
- **Hygiene Programme** – Rest assured baby bottles, chopping boards and kitchen items are effectively cleaned and bacteria-free
- **Intensive Lower Basket** – Pots and pans are targeted with an intensive spray for superior cleaning
- **Maintenance Programme** – Prevents residues or soiling within the cabinet. For best results use in conjunction with Miele IntenseClean
- **Miele CareCollection** – Specially formulated care products to complement Miele wash programmes including powder, tabs, rinse aid and salt

Refrigeration

- **ComfortClean** – High quality shelving can be easily cleaned in a dishwasher

Gas Cooktops

- **ComfortClean Pot Rests** – Dishwasher safe for thorough cleaning and convenience

Healthy Home

Miele's hygienic features give you peace of mind within the home.

Washing Machines

- **TwinDos** – Have ultimate confidence and disinfect in temperatures as low as 30°C thanks to oxygenated bleach with TAED bleach activator found within UltraPhase 2
- **Cottons Hygiene Programmes** – Minimise bacteria due to high wash temperature and heat retention times of up to 60 mins, certified by Rhine-Wall University of Applied Sciences
- **Allergo Wash Option** – Customise your load to eliminate 99.99% of germs and allergens, even at 40°C
- **Pillows / Down Duvets** – Maintain breathability of textiles whilst eliminating dust mites. For best results use in conjunction with Miele Down Items.
- **Hygiene Info** – A friendly prompter to clean the drum with the Maintenance Wash after 20 consecutive cold washes
- **Maintenance Wash** – Keep your machine nice and clean with our dedicated hygiene treatment. For best results use in conjunction with Miele IntenseClean.

Tumble Dryers

- **Cottons Hygiene** – Allergens, bacteria and mites are deactivated thanks to a longer temperature hold time
- **Pillows / Down Duvet** – Programmes to complement the washing machine for safe drying of trickier items
- **Fluff Filters** – Simple removal of visible fluff after each cycle, this can even be done with a vacuum cleaner so you can remove the fluff without touching it!
- **Highest Moisture Retention** – Highest condensation efficiency when tested under European Standards, minimising the risk of mould formation on walls & ceilings

FashionMaster

- **Automatic Rinses** – Convenient rinses to prevent a build-up of minerals due to the evaporation process

Vacuum Cleaners

Bagged Vacuum Cleaners

- **Boost** – Power is increased for 20 seconds for particularly stubborn soiling
- **Airflow Indicator** – A handy visual prompter when the dustbag needs replacing
- **HyClean 3D Dustbags** – Dust is securely trapped thanks to the self-sealing collar, making dustbag replacement particularly hygienic
- **HEPA AirClean Filter** – 99.5% of small particles such as fine dust and allergens are retained by the system, providing the perfect solution for asthma and allergy sufferers. Filtered and discharged air is cleaner than the ambient air!
- **Timestrip Indicator** – Provides guidance when the filter needs replacing

Bagless Vacuum Cleaners

- **Hygienic Emptying** – Innovative separation of coarse soiling and fine dust in different containers
- **HEPA AirClean Lifetime Filter** – Effective retention of fine dust & allergens for the life of the vacuum cleaner

Robot Vacuum Cleaners

- **Quattro Cleaning** – Perfect dust pick up thanks to the 4 stage cleaning system
